## **Invisalign Procedure Guide**

We are happy to provide your orthodontic treatment using the Invisalign system. Before we begin the journey, there are a few steps to go through and we ask you to kindly read the information below prior to proceeding;

•Intial clinical consultaion with Mark Northwood (£105.00) this will include a 3D scan with the iTero scanner, photos and X-Rays if indicated.

•If Invisalign is the system of choice, we will then submit your records to Invisalign for a ClinCheck ® This is a short animated movie that allows you to see your predicted Invisalign result. There is a fee of £270.00 for this which will be deducted from the total cost of your Invisalign treatment, however if you decide not to proceed, this fee is non-refundable.

Review

•Once we have your ClinCheck ® results back from Invisalign, we will contact you for a review appointment. We will clarify and explain the treatment, answer any questions and complete all the necessary paperwork and give you a quotation at this stage.

• If you are happy with the predicted outcome and wish to proceed with Invisalign treatment, we ask that you sign all relevant paperwork and pay the inital deposit to cover the Invisalign costs. (Please note this fee is non refundable once the aligner order has been submitted)

Order

•Once we have all the paperwork signed and the initial payment, we will submit the order to Invisalign.

Appointm<u>ent</u>

•The aligners normally arrive at the practice within 7 working day. Once they are here, we will contact you to arrange a fit appointment. At the fit appointment, we will arrange a payment plan for the remaining balance.

Progress

•You will need to attend appointments every 6-8 weeks to ensure that your treatment is going to plan.

End of treatment

• Once you have worked your way through all the aligners, you will need to wear a retainer. This will ensure your teeth remain in their new aligned postion. Good retainer wear = nice straight teeth!
